

netlife flex system; in-house project engineering or by customer; easy installation, extended functions and variable settings; easy commissioning per app, extended interconnectabilities

CHARACTERISTICS

Regiolux Classification	netlife flex
Control signal	DALI broadcast, Radio
Number of control gear (max)	15
Communication	Bluetooth
Sensor technology	PIR - passive infrared
Installation height (min/max)	2m to 12m
App name	Hytronik Koolmesh
System compatibility	easy25, flex44, flex50, flex54, flex55, flex56
Note	Can be linked to further Hytronik Koolmesh controllers.
System extension	netlife flex56
Application	Office, Meeting rooms, Corridors, Secondary rooms
Function	Motion detection, Corridor function, Guided Light, Daylight control, HCL (only with DT8 luminaires), Tunable white (only with DT8 luminaires), Manual dimming

MONITORING AREA

Mounting Height	12m
Ø max. sitting[S]	-
Ø max. radial[R]	12m
Ø max. tangential[T]	16m
